## Lambretta V125 Special 2025

Get real go real

**£3,199** +OTR

from £143.27 p/m

Lambretta V125 Special Fixed Fender boasting a unique double layer side panel design, this scooter features a 1.2mm steel middle beam that extends outwards in an airplane profile architecture. This innovative construction allows for easy access to the engine and reduces unnecessary weight. The side panels are available in various shapes and colours, with the standard V-Special being "monocolore." Equipped with a Bosch CBS system, the disc brake provides exceptional stopping power, while the full LED technology with DRL lights and Lambretta logo make for a sleek and modern look. The durable alloy wheels are suitable for all road conditions, and the reinforced exhaust pipe features heat shields and has passed EURO 5 emission standards. Powered by a 4-stroke, air-cooled engine with a displacement of 124.7cc and a compression ratio of 10.7:1, the V-Special boasts an EFI fuel management system and CVT transmission with ECU ignition and E-starter. Measuring 690mm in width, 1900mm in length, and 1130mm in height, the scooter has a wheelbase of 1330mm and a seat height of 770mm, with a tank capacity of 6.5L. The front and rear hydraulic disc brakes with a diameter of 220mm and CBS ensure excellent braking performance, while the telescope fork front suspension and single suspension rear ensure a smooth ride. The V-Special also features a spacious luggage area beneath the comfortable seat, and the traditional Lambretta lion can be found on the key. For those looking to customize their V-Special even further, Lambretta offers full carbon sets for an old-school "bicolour" look. With attention to every detail, the V-Special is unmistakably a Lambretta.
